### Set up Lights

Set up your lights conveniently out of the distance. Adjust DMX settings on one or several lights. After your job, do a master reset

### **Monitor Lights**

Check your lights while operating them. View battery status, settings, targeted lights and get informed if a light is being moved.

### **Control Lights**

Send effects and colors to your lights. Choose which lights you want to target. Save programs for quick launch later.

The AsteraBox works as a wireless DMX transmitter with CRMX technology, just connect it with the included XLR adapter.

#### Compatible

Astera Lights can be controlled together by CRMX and W-DMX (limited compatibility) so you can use them together with other wireless lights.
