

# USER MANUAL

## COLORBEAM 7 FCW IR

7 full color + white

Thank you for purchasing this product.  
For your own safety, please read this user  
manual carefully before you initially start-up

# USER INSTRUCTION - COLORBEAM 7 FCW IR

## SAFETY INSTRUCTIONS

**Every person involved with the installation, operation and maintenance of this device has to :**

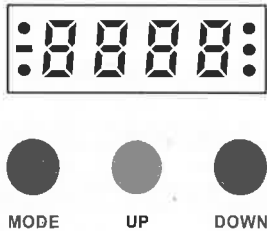

- be qualified
  - follow the instructions of this manual
- **CAUTION !** Be careful with your operations. With a dangerous voltage you can suffer a dangerous electric shock when touching the wires !
- This device has left our premises in absolutely perfect condition. In order to maintain this condition and to ensure a safe operation, it is absolutely necessary for the user to follow the safety instructions and warning notes written in this user manual.
- **IMPORTANT:** Damages caused by the disregard of this user manual are not subject to warranty. The dealer will not accept liability for any resulting defects or problems.
- Keep away from heaters and other heating sources !
- If the device has been exposed to drastic temperature fluctuation (e. g. after transportation), do not switch it on immediately. The arising condensation water might damage your device. Leave the device switched off until it has reached room temperature.
- Make sure that the power-cord is never crimped or damaged by sharp edges. Check the device and the power-cord from time to time.
- If the external flexible cable or cord of this luminaire is damaged, it shall be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid a hazard.
- shields, lenses or ultraviolet screens shall be changed if they have become visibly damaged to such an extent that their effectiveness is impaired, for example by cracks or deep scratches.
- Never let the power-cord come into contact with other cables ! Handle the power-cord and all connections with the mains with particular caution !
- Make sure that the available voltage is not higher than stated in this manual.
- Always disconnect from the mains, when the device is not in use or before cleaning it. Only handle the power-cord by the plug. Never pull out the plug by tugging the power-cord.

- During the initial start-up some smoke or smell may arise. This is a normal process and does not necessarily mean that the device is defective.
- **DANGER OF BURNING !** Never touch the device during the operation ! The housing heats up to the housing temperature TSURFACE.
- Don't switch the device on and off in short intervals as this would reduce the lamp's life.
- **HEALTH HAZARD !** Never look directly into the light source, as sensitive persons may suffer an epileptic shock (especially meant for epileptics)
- Always disconnect from the mains, when the device is not in user or before cleaning it.
- Please note that damages caused by manual modifications on the device or unauthorized operation by unqualified persons are not subject to warranty.
- Keep away children and amateurs from the device !
- There are no serviceable parts inside the device. Maintenance and service operations are only to be carried out by authorized dealers.

## OPERATION INSTRUCTIONS

- 1) The system has DMX online and stand-alone mode. DMX online mode can link other units and be controlled by DMX controller; The stand-alone has some functions of sound, Auto Mixcolor and Strobe and so on..When Slave fixture is under No-DMX / No IR OFF mode then it will turn DMX mode 4 with DMX signal.
- 2) Master / Slave Setting: The master (MODE5-MODEL 12/IR mode), and the slave(MODE1/2/4). When there is DMX signal, Master turns into DMX mode3 (mode 3 don't change). If not, fixture turn back to the last mode.
- 3) If a DMX signal is present under Online mode, the DMX LED will blink very fast to indicate, While under Master / Slave mode, Master's LED indicator will light and Slave's one will blink to indicate.
- 4) Display screen will turn off after 10s. In this condition, pressing any keys is useless; turning back when, pressing any keys with 3s. In OFF mode, IR's function is not restrict, it runs usual, but screen is off.
- 5) In IR mode, pressing any keys, the fixture would turn back to the last mode.
- 6) With any R/G/B/W output, the fan will on. W/O R/G/B/W output, after 3s, the fan stops.

## 1. IR INSTRUCTIONS

DISPLAY	BUTTON NAME	FUNCTION DESCRIPTION
	MODE	Select your desire mode.
	UP	DMX: select address; run AUTO MODE;
		adjust MODE speed. MACRO : select color.
	DOWN	DMX: select address; To run AUTO MODE.
		adjust MODE speed. MACRO : select color.

# IRC161 REMOTE CONTROL USER MANUAL

- 01) Setup : enter remote control mode.
- 02) Cancel : exit remote control mode, back to the target lamp control mode of before entering remote control mode.
- 03) OFF : turn off the target lamp.
- 04) ON : back to the remote condition of before turning off the target lamp.
- 05) Flash : 7 colors strobe mode +8 steps speed regulation.
- 06) Strobe : Strobe mode +8 steps speed regulation.  
(R / G / B / W 0:OFF, 1-255 JOIN IN).
- 07) Fade : fade mode +8 steps speed regulation. The color is decided by the color keys on the remote control (R / G / B / W 0:OFF, 1-255 JOIN IN).
- 08) Smooth : Auto-Mixcolor mode +8 steps speed regulation.
- 09) DI1 - DI4 : with other macro mode white value (0%,25%, 50%,75%,100%) or total value rate for (Flash, Strobe, Fade, Smooth) (25%,50%,75%,100%).
- 10) The rest keys show Mixcolor mode.
- 11) Infrared ray remote control should control Distance and Beam Angle, Distance <5M, Beam Angel <±30° best.
- 12) When in the short distance or the remote control can not work, please check whether the battery has exhausted !

## TECHNICAL SPECIFICATIONS

**Suitable for :** indoor use IP 20

**Voltage Input :** 100-240VAC / 47-63Hz

**Current :** 0.35A

**Power Consumption :** 35W

**LED amount :** RGBW 4 in 1, 7 x 5W

**DMX channel :** 1/2/4/8 channels (DMX-MODE 1/2/4/8)

**Dimensions (LxWxH) :** 300 x 195 x 158mm

**Weight :** 1.9Kg
